Wrestling  
Shooting  
AutomobilingSHOOTERS ASK  
FOR NEW DATEThey Want to See the Parade of  
the Veterans in  
Salt Lake.

Salt Lake, Aug. 5.—The trap shooters of this city have started a movement whereby they hope to be able to change the date of the Idaho-Utah Sportsmen's association tournament in Ogden so that they will be enabled to see the G. A. R. parade in this city. The tournament is scheduled to start on August 11, and this is the day for the big parade. Such a move has already been suggested, but those in charge of the Ogden tournament could not see it that way and announced that they do not feel like making a change. The professionals who will be in attendance are all in favor of the change to allow them to come to Salt Lake for that day, but as they are representing shell and ammunition houses they do not feel like making a kick, as they are supposed to go and shoot on the dates their firms decide to send them. Nevertheless they would all appreciate it if the Ogden management would make the change. While no kick is liable to be registered by the professionals, there will be a kick from some of the amateurs and the professionals are scarcely with them. One professional said today that he had never seen the old soldiers on parade in his life and that he had enough good, red, American blood to want to, and that as this was an opportunity that could probably never come up again, he certainly would appreciate it if the opening date could be set back one day. There are a number of shooters coming from Idaho for the Ogden tournament and it is dollars to doughnuts they will be absent on the opening day and come to Salt Lake anyway. They are unattached and as one of the shooters said yesterday: "Our time is our own and while we like shooting all right we will hardly overlook the opportunity of coming to Salt Lake on the day of the parade at least."

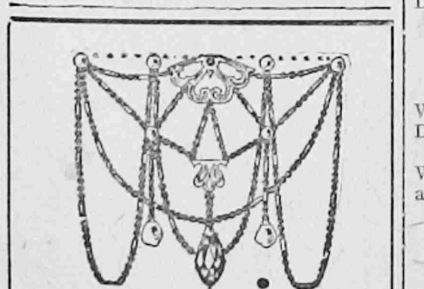

ROY CASTLETON IS  
ON HIS WAY HOME

The following letter from Roy Castleton, Utah's greatest outlaw pitcher who has been twirling such wonderful ball in the Southern league during the past three seasons, and who is now a member of the Cincinnati National league club, brought a smile over the face of Bert Margetts this morning: "W. D. Bratz, sporting editor Telegram. "Friend Walt—Have just received a leave of absence from the Cincinnati club for the balance of the season and will be in Salt Lake about Friday. I am in good shape and feel fine. If any of the clubs in Utah or Idaho want me to finish the season with them I will be glad to do so. "My going west is a scheme of mine and Griffiths, and I will not have to report again this season. Griffith figures that a rest at home will do me a world of good. I figure that I have all the malaria out of my system, but Griffith says 'a rest will put me in great shape for 1910.' I will leave for Salt Lake tomorrow (July 21). "Griffith has treated me like a prince and can't do enough for me. He has insisted that I go into the mountains where it is cooler, and live a rustic life until next spring. I saw at once that it was a good scheme, and of course did not refuse the opportunity. "Give my regards to the boys and tell them I will be home Friday. Your old friend, ROY."

Bert Margetts, who has made arrangements to play the Idaho Falls team, champions of Idaho, at Walker's field Saturday and Sunday, jumped at the chance of getting Castleton and has wired him asking him to pitch Sunday's game, so that it is highly likely that the big leaguer will be sent against the Idaho wonders next Sunday.

MARGIN LANDS  
\$10,000 STAKE

Kalamazoo, Mich., Aug. 4.—Margin landed her second \$10,000 stake of the season when she won the feature of today's card on a muddy track. Margin was an even money favorite against the field before the race. Results: 2:11 pace, purse \$10,000—Green Pilot won third, fourth and fifth heats. Time: 2:08 1-2; 2:09 3-4; 2:12 1-2. Walter Hal won first heat. Time: 2:09 1-4.

TWO PICKPOCKETS  
TAKEN TO JAIL

Just as train No. 4, on the Bamberg railroad, was about to pull out last night, Lovel Gibson, of Clinton, stepped into the ticket office and notified the ticket agent that he was the "fall guy" in a jostling game and had had his pockets picked. He started back to show the station agent who the fellows were and as he stepped on one end of the car, they jumped on the other end and attempted to make their getaway by climbing fences and running through back yards.

Watchman Hamilton, at the Bamberg yards, spied the men and he and a number of boys started after them. He was joined by a deputy sheriff and by some clever strategy they succeeded in cornering Thomas Hildebrandt and Thomas McCarty, whom they captured and brought to the city jail. Two other members of the gang succeeded in making their getaway.

FATHER MAY VISIT HIS  
CHILD ONCE A WEEK

New York, Aug. 5.—Just how often a father of ordinary and proper affection should desire to see and visit with an infant son of 16 months, was officially passed upon by Judge Brady in the supreme court. The issue came up on a writ of habeas corpus secured by Jos. Magnas, directing his wife Josephine to produce in court their 16-month-old son, Joseph, Jr.

The mother's attorney explained that the father and mother were not living together. Judge Brady said he thought the proper place for the child was with the mother, but said the father could come and visit it on Sundays. "Once a week, I think, is all that any ordinary father, no matter how devoted, would care to visit an infant of 16 months," commented the court.

CITY FIGHTS AN EPIDEMIC  
OF INFANTILE PARALYSIS

Winona, Minn., Aug. 5.—Winona is fighting an epidemic of infantile paralysis, which attacks children between the ages of six months and ten years, and where it does not kill, leaves the victims helpless cripples.

When officers of the board of health failed to check the growing number of cases, the state authorities were called in. They said the disease germ is carried in the dust from the streets into the susceptible organs of the children. The thirty or more cases are scattered throughout the outlying districts, which are not sprinkled.

A special meeting of the council was held and it was decided to sprinkle the entire city, alleys, streets and sidewalks in an effort to rid the city of the germs.

MILLIONS ARE SPENT ON  
FORMOSA'S HARBOR WORKS

Victoria, B. C., Aug. 5.—Paul Bell, a civil engineer, who returned yesterday from Formosa, says that millions of dollars are being expended on Formosa's harbor works and fortifications, in pursuance of a plan to establish Japanese naval bases at Keelung to the north and Tainan to the south. The Japanese are adopting a cruel method of dealing with the rebel hunters of Formosa. They have stretched trochas of barbed wire across the districts, heavily charged with electricity.

The rebels make occasional raids, and shortly before Mr. Bell left, he rushed a Japanese settlement and killed thirteen of the Japanese, decapitating them and carrying off the heads.

MRS. SAMUEL BARNARD  
FILES SUIT FOR DIVORCE

Pueblo, Colo., Aug. 5.—Mrs. Carrie L. Barnard has filed suit in the district court here for divorce from her millionaire husband, Samuel D. Barnard, known throughout the West for his mining operations.

The suit was led secretly several days ago and elaborate precautions have been taken to keep it quiet. Barnard is now residing in Colorado Springs.

CHINESE INTERPRETER'S LIFE  
THREATENED BY COUNTRYMEN

New York, Aug. 5.—Quay Yick Nam, the Chinese interpreter who gave his services to the police in their efforts to solve the murder of Elsie Sigel, has informed the district attorney's office that his life has been threatened by certain of his countrymen if he does not withdraw from the case.

GREAT CROWD AT  
RINGLING CIRCUS

Hyrum hitched up the old farm wagon, and brought Miranda and their twelve kids in town to see the circus. Not only the little tots, but the large folks, as well, were "ticked to death" at the bewildering performances put up by the Ringling people, if the broad smiles and genial greetings seen and heard afterward, were anything to judge by.

The spirit of the parade was evidently caught by a local firm and the device that attracted a good deal of attention—"Uncle Sam," driving a well groomed steed and supporting a novel banner, shaped somewhat like a four-sided transparency, done in the national colors and bearing such catchy phrases as, "It's the clowns for fun, but the best laugh is for the Paine & Hurst customers." "The procession will soon follow—after which trade at the Paine & Hurst Store, where you get the best show for your money."

The afternoon performance was started at 2:30 and the largest part of the main tent was filled by children and people from outside towns. To the children—and to the old folks, too—they hate to admit it—the clowns were the most important actors in the big show. Under the leadership of George Hartsell, Ringling Brothers have the largest and best band of clowns in the world. There are fifty-five of the funny fellows and they have been gathered from all parts of the world. Every language spoken is heard in the dressing room of the men with the cap and bells. Hartsell is the fellow who introduced the Roosevelt hunting exhibition into circusdom and the thousands last night saw the perfect control he had over the savage beasts from Africa.

The clowns were not the only part of the program by any means. There were tight-wire artists, bicyclists, trapeze performers, horseback riders, elephants, ponies, dogs, strong men, daring leaps in autos and the inevitable chariot and running races.

Saxon Brothers, the strong men, put up a wonderful exhibition of strength and agility. Any one of the seven brothers lifted a man easier than some of the "mercy mortals" would lift a baby. At one time the largest of the brothers laid on his back with his feet in the air and held twelve men on a plank, placed on his feet, while his two brothers balanced on his hands.

The Chanson bicycle troupe did some new and novel work with their puny wheels.

The Jordan family are the best trapeze artists that have been seen in these parts for a long, long time, every move sent a thrill through the audience and many a sigh of relief was uttered when they safely concluded their act.

Johnnie Agee, the world's greatest "rough rider," made the audience pay attention when he went through his many dare-devil and difficult feats. Mrs. Strickley did some very clever work on a beautiful, large white horse. Mrs. Strickley is the only circus lady in the world who has successfully executed the double hurdle on horseback, and she is more than proud of the distinction.

The elephants came in for their share of notoriety and they earned it. They are the most intelligent animals in the menagerie, and in their act yesterday they did everything that a human can do, with the exception of talking, and in the telephone act, most likely they said things to each other in a language which human beings are too ignorant to translate.

Everyone was more than pleased with the clean, wholesome, delightful show the Ringling people presented, and already they are beginning to wonder when the circus will come again.

Both performances were crowded to the limit and at the evening show the S. R. O. sign was hung up, before the show started.

An hour after the show was out, the tents had been pulled down and placed in wagons, the animals had been caged and the show grounds were deserted.

The circus left at one o'clock for Idaho Falls, where they will stop next, thence going to Butte and from there to the coast.

It is estimated that fully 20,000 people attended the circus here.

## CIRCUS BREVITIES

Persons sitting in the grandstand were paralyzed with laughter, at the sight of a woman, smashing and scratching at a clown policeman, who had grabbed her boy and was beginning to shake him.

One of Ogden's finest walked up to the lady and assisted her in recovering the boy and then after she had quieted down he found a seat for her.

A few minutes later this lady (who walked into the clown's tent and after taking off his makeup announced that Ogden was the first town he had hit yet in which he had not been arrested for disturbing the peace.

The woman in the case was no other than Al. H. White, a veteran circus clown and creator of his inimitable impersonation.

In the Casino tent, Ringlings have found two pigmy Hungarians who are not only artists on the violin, accordion, flute and other musical instruments, but are also considered two of the cleverest clowns in the business.

One is 47 years old and stands 3 feet

ten inches in his stocking feet, while the other one is 21 years old and is just exactly one foot shorter.

Ringling Brothers band, under the direction of Al Sweet, is the best circus band that has ever come through this part of the country. There are forty men in the band and it is estimated that they work eight hours every day, not counting the time they spend in fixing up their instruments.

IS HURLED FROM  
TRACK BY TRAIN

Yesterday afternoon a tie tourist, named Thompson, became fatigued with his weary walk, in the blistering afternoon sun and laid down by the side of the Salt Lake and Ogden Railway tracks near Hilltop using one of the rails as a pillow.

At Hilltop there is quite a steep grade and the train was but a short distance from the man when the engineer saw him lying there. Engineer McCreery threw on the brakes and did his best to stop the train before he reached the sleeping man, but his efforts were unsuccessful, and the train was moving at a high rate of speed when it hurled the man from the tracks.

He was rendered unconscious by the blow, his head was badly cut and it is thought that he has received internal injuries. He was placed on the train and rushed to the Ogden General hospital, where he later regained consciousness.

MORE IRRIGATED LANDS TO  
BE OPENED BY GOVERNMENT

Arrangements have been completed for the opening of 70,000 acres of choice irrigated lands on the Valier (Montana) tract, October 7th, 1909. The date set for registration claims are October 1st, 2nd, 4th, 5th, and 6th. Everything is being planned for handling the crowds comfortably and for conducting the drawing without delay or discomfort. This Carey segregation is to be thrown open to the public at reasonable terms.

The price and terms set by the state board is \$40.50 per acre, including land and perpetual water rights which are the oldest and best established in the state. The first payment required is \$3.50 per acre; fifteen years are allowed in which to complete the payments. The land will grow as good crops as the best \$200 and acre soils of the corn belt without their uncertainty of seasons, and home-sown crops will doubtless gobble up the 70,000 acres of irrigated land very quickly.

REBELLION FOLLOWS FAMINE  
IN PROVINCE OF CHINA

Victoria, Aug. 5.—The steamer Tango Maru, from the Orient, yesterday brought news of a rebellion in the great Mohammedan province of Kansu, China, following a famine.

One of the members of an American exploring party sent out by R. S. Clark, of New York, of the American Geographical Society, a Hindoo topographer, has been killed.

Several walled cities including Yulinfu, Yenafu, Sitchou and Misuh-lisen, were besieged by the rebels, against whom imperial troops, foreign drilled and capable, had been sent.

The Tango Maru brought news that there has been a recrudescence of piracy in South China and some tragic affairs are reported, seven persons being roasted to death by pirates near Shuntak, after the capture of a castle-like house, owned by one of the local gentry. Although the Chinese garrison was but 300 yards away, no troops came to assist the besieged household, or to succor them when the pirates burned them alive.

JEFFRIES-JOHNSON FIGHT  
DEPENDS UPON THE NEGRO

New York, Aug. 5.—On the eve of his departure for Europe tomorrow, James J. Jeffries issued a statement last night through his manager, Sam Berger, saying that everything depended on Jack Johnson as far as a fight between himself and the negro was concerned.

He did not seem to consider seriously Johnson's posting \$5,000 in Chicago this week, and said that it was up to Johnson to meet "reasonable conditions." He added that he had received no official communication of Johnson's action in Chicago.

Berger said that he hoped to see Johnson in New York in a few days and go over the situation, and to receive some bid for the fight from promoters during Jeffries' absence abroad.

Aside from a sojourn at Carlsbad for his health and a reunion with his wife and mother in Germany, Jeffries said he had no special plans for his European trip.

## Anty Drudge on True Economy.

Mrs. Nuvved—"I'm economizing by doing my own washing. By boiling the clothes a long time I can get the dirt out without much hard rubbing."

Anty Drudge—"Economizing shucks! You're burning up money in fuel and wearing out your clothes faster when you boil them. Use Fels-Naptha in cool or lukewarm water without boiling. You'll save fuel, save your clothes and you won't have any hard rubbing. That's true economy."

How much are the clothes worth that go into your weekly wash?

Many dollars at least.

Isn't it worth while to take good care of those clothes, to make them wear as long as possible?

Then, why soften them by boiling and hardrub them into holes on the washboard?

The Fels-Naptha way of washing will save your clothes.

Fels-Naptha will cleanse them thoroughly in cool or lukewarm water without boiling or hard rubbing.

The clothes will be sweeter, cleaner and whiter than you can get them any other way. And they'll wear twice as long.

Remember,—whether winter or summer, no boiling, no hot water, no hard rubbing.

Time saved, fuel saved, work easier, less bother.

Follow simple directions on the red and green wrapper.
